SUMMARY

Full Stack Developer with professional experience building scalable web applications using **Node.js (NestJS)** and **React (Next.js)**. Specialized in REST API development, role-based access control, and admin dashboard architecture. Strong background in developing responsive, high-performance user interfaces and integrating frontend applications with secure backend services. Experienced with MySQL and MongoDB, clean architecture, and production-ready deployments. Known for problem-solving, attention to detail, and delivering maintainable solutions.

EDUCATION

- BS in Information Technology** Virtual University of Pakistan
Relevant Coursework: Operating Systems, Data Structures, Algorithms, Networking, Databases

SKILLS SUMMARY

- Programming Languages:** JavaScript, TypeScript, SQL, HTML, CSS
- Frontend Technologies:** React.js, Next.js, Tailwind CSS, Bootstrap
- Backend Technologies:** Node.js, NestJS, REST APIs
- Databases:** MySQL, MongoDB
- Tools & Platforms:** Git (GitHub, GitLab, Bitbucket), Postman, Swagger, VS Code, CI/CD, AWS Deployment
- Core Competencies:** Admin Dashboards, API Integration, Role-Based Access Control, Performance Optimization, Clean Architecture

WORK EXPERIENCE

- Ititans – Lahore** Remote
Full Stack Engineer 06/2024 – Present
 - Admin Portal Development:** Developed scalable admin dashboards using **Next.js** and **React**, focusing on reusability and performance.
 - Backend API Development:** Built secure backend services using **NestJS**, implementing REST APIs, authentication, and role-based access control.
 - Third-Party Integrations:** Integrated multiple third-party APIs to support business workflows and external services.
- eSolutions Provider** On-Site
Full Stack Engineer (Node.js & React.js) 01/2023 – 06/2023
 - Full Stack Development:** Developed and maintained web applications using Node.js for backend services and React.js for frontend interfaces.
 - REST API Development:** Designed and implemented RESTful APIs following best practices for security, validation, and scalability.
 - Frontend Engineering:** Built reusable React components and integrated APIs to deliver responsive user interfaces.
 - Database Integration:** Worked with MySQL and MongoDB, implementing optimized queries and structured data models.
 - API Testing:** Tested and documented APIs using Postman to ensure reliable frontend and third-party integration.

PROJECTS

- Ummah Platform (Community, Admin, Web Portal):**
 - Developed frontend applications using **Next.js** for community, admin, and web portals.
 - Implemented location-based event discovery features for the web portal.
 - Built reusable UI components and integrated REST APIs.
 - Contributed to backend development using **NestJS** with authentication and role-based access.

Tech: Next.js, React, NestJS, TypeScript

- Sanady Admin Portal (Old Age Care Management):**
 - Developed admin dashboards for managing caregivers, users, and service records.
 - Integrated APIs to support workflows such as registrations and care assignments.

Tech: React, TypeScript

- 5 Star Roofing Internal System (Multi-Tenant CRM):**
 - Built backend services using **NestJS** for job, customer, and worker management.
 - Developed internal dashboards using **Next.js**.

Tech: Next.js, NestJS, TypeScript

- **FiveStar Roofing Website:**

- Developed responsive, SEO-friendly frontend pages.
- Integrated backend services for contact and inquiry management.

Tech: React.js, TypeScript

- **One Retain Platform:**

- Contributed to frontend development and API integrations.
- Collaborated with backend services to ensure reliable data flow.

Tech: React.js, TypeScript

- **And more:**

TRAINING AND MENTORSHIP

Provided mentorship to junior developers with a focus on React and Node.js best practices, reusable component design, API integration, and clean coding standards through code reviews and technical guidance.
